

ESCOLA BILÍNGUE PUERI DOMUS SCHOOL PROFILE

SCHOOL MISSION

To educate world citizens, capable of dreaming, creating and achieving.

COMMUNITY AND SCHOOL INFORMATION

Escola Bilingue Pueri Domus offers a Bilingual Program to all its students that meet the expectations of a comprehensive and dynamic education committed to national and international academic standards.

In Escola Bilingue Pueri Domus, all students go through a combination of a complete International Baccalaureate Diploma program and the rigorous Brazilian curriculum. This offers the combination of skills that builds an educational background that will be carried over to an autonomous and successful career in any higher institution.

Pueri Domus has a 50-year history of leadership in education. Its bilingual educational approach is proof that Pueri changes as a society evolves, offering a learning process in tune with new social demands.

Many of the essential skills for the 21st-century mindset, among them relativization and divergent thinking, are strongly stimulated in the context of bilingual acquisition. The integrated language curriculum enables interdisciplinary projects that go beyond the fragmentation of subjects and provide bilingual integration of learning.

Pueri Domus adopts methodologies such as Project-Based Learning, Active Methodology, Play-Based Learning, and Collaborative Learning, as well as Hybrid Teaching and Flipped Classroom, which provide new classroom dynamics and reshape roles: students as active agents, connecting and organizing knowledge, and teachers as curators and supervisors of the process of knowledge investigation and systematization.

CORE PROGRAM

CORE (Citizenship, Opportunity, Respect and Empathy) is a program that aims to develop socio-emotional skills in our students, addressing all stages of life rather than only childhood or adolescence.

In our view, socio-emotional skills comprise a set of important daily attitudes that help individuals interact positively within the community, inside and outside the school environment.

The CORE program reaffirms the mission of Escola Bilingue Pueri Domus to educate world citizens capable of dreaming, creating and achieving, integrating the community and the school environment in a holistic learning ecosystem. The development of socio-emotional skills is a long-term process that requires constant and consistent reinforcement. Students are encouraged to develop such skills in the school environment, drawing on their individual traits and being the protagonists of their own life stories.
